EXPERIENCE

Software Developer Intern

Exclusive Vision Media Pvt. Ltd

- Architected and deployed a production-ready website using Next.js, owning the end-to-end development cycle from UI implementation to backend integration. (www.santvanichannel.com)
- Engineered scalable backend services and APIs to support core website functionality, ensuring seamless data flow and optimal client-server performance

Project Coordinator Intern

MakeAMine Digital Marketing Agency

- Coordinated multiple software development lifecycles while simultaneously designing and developing responsive webpages for the AutoTech Asia 2026 event at Bharat Mandapam

AI DEVELOPMENT & AI ENGINEERING

AI-Powered Development

- Expert in AI-assisted software development using modern LLMs to accelerate full-stack application development.
- Build production-ready web applications by combining AI workflows with strong software engineering practices.
- Experienced in prompt engineering, context management, code generation, debugging, optimization, documentation, and architectural planning.

AI Engineering

- Prompt Engineering
- AI-assisted Full Stack Development
- LLM Workflow Design
- AI Code Review
- AI Debugging
- Context Engineering
- AI Architecture Planning
- Retrieval-Augmented Development
- Documentation Automation
- Workflow Automation

My workflow with AI Based Development

- **Architect** - To Design scalable application architecture.
- **Remember** - Building with persistent context, reusable prompts.
- **Review** - To Perform AI-assisted Code Reviews.
- **Recover** - Debug the code using AI.
- **Imprint** - Establish consistent coding standards.

PROJECTS

Myst Engine (My Website)

JUNE/2026

[Link to Live Website](#)

Architected and deployed MYST // ENGINE, a highly interactive, dark-themed personal website built with Next.js, Tailwind CSS, and Framer Motion. Engineered a secure, headless CMS "Shadow Control Room" connected to a MongoDB cluster, enabling real-time CRUD management of projects, skills, and media radar without code deployments.

EDUCATION

Bachelor of Technology (B-Tech)

Dr. Akhilesh Das Gupta Institute of Professional Studies

Guru Gobind Singh Inraprastha University

2023-2027

- Branch: Information Technology
- Current Semester - 7th
- CGPA (till 6th Semester): 8.674

CGPA

8.674 / 10.000

12th Standard (CBSE Boards)

YuvaShakti Model School, Rohini Sec-3

2021-2022

- Course: Non-Medical with Computer Science

SKILLS

Technologies

- HTML
- CSS
- JavaScript

Libraries

- React
- TailwindCSS
- Capacitor

BackEnd-Dev

- Next.js
- Node.js
- MongoDB

OS

- Linux (Ubuntu)
- MacOS
- Windows 11

AI Tools

- Claude (Opus)
- ChatGPT (GPT-5)
- Google Gemini
- GitHub Copilot
- Antigravity IDE

Version Control

- Git
- GitHub

ACHIEVEMENTS

Graphics Lead – GeeksforGeeks ADGIPS Student Chapter

- Designed 20+ creative assets
- Growing engagement by 30%

Google Cloud Arcade 2025 – Cohort 1

- Completed a total of 416 Labs,
- 87 Courses,
- 64 Quizzes,
- 24 Games and 118 Arcade Badges

PROJECTS

E-commerce Website (ArtCart)

JULY/2025

[Link to Live Website](#)

Developed a fully functional front-end e-commerce website using HTML, CSS, and JavaScript. Implemented features like dynamic product listing, category filtering, real-time search bar, user authentication forms, and seamless navigation. Integrated Google Sheets as a lightweight backend using Google Apps Script to store form data. Focused on responsive design, clean UI, and maintainable code structure.

Blog App

DEC/2025

[Link to Live Website](#)

Developed a comprehensive full-stack blogging application featuring secure database management and user authentication powered by Appwrite.

Personal Portfolio Website

FEB/2025

[Link to Live Website](#)

Designed and developed a responsive cosmic theme personal portfolio website using React, Router and other react libs.. to showcase my FrontEnd skills. Included interactive sections like AboutMe, Skills, Projects and a mock contact form. Focused on clean aesthetics, intuitive layout, attractive UI, and smooth user experience.

MY WEBSITE

[Click Here to Visit](#)

You can know everything in detail, about me and my potential by just visiting this site that I created within a few days using Modern Day Technologies in Artificial Intelligence.
